Description

A new frontier of the Real Grade series begins with the introduction of the Multipurpose Humanoid Decisive Weapon, Artificial Human Evangelion. The first release is the iconic EVA Unit-01 from the "Rebuild of Evangelion" movies. True to the mission of the Real Grade line to make these larger than life characters "real", the RG Evangelion features intricate linked parts construction to represent the relaxation and contraction of muscle fibers resulting in a very close emulation of human-joints.

The movement of the spine and shoulder blades are linked to the armor parts and follow the movement of the arms and chest, shifting as needed to prevent parts from obstructing each other. From this, realistic humanoid crouching and running poses can be re-created for EVA Unit-01. Includes Entry Plug, Pallet Rifle, 2 Progressive Knives, Umbilical Cable, and 6 types of hands in different expressions.
